ABOUT ME

Front End Developer focused on Angular, with full stack ability in .NET and SQL Server for API integration. ITI-trained, with hands-on experience building Angular interfaces backed by solid APIs, plus integrating AI features into applications. Always learning new technologies to grow as a developer.

EXPERIENCE

Full-Stack Developer (Freelance) **Jun 2026 -Jul 2026**

Najma – E-commerce Platform for Hijabs & Scarves

- Built and deployed a full-stack e-commerce platform with an Angular 21 frontend, ASP.NET Core (.NET 10) backend, and SQL Server database.
- Developed a Clean Architecture backend with EF Core, JWT authentication, and Repository/Unit of Work patterns.
- Built a responsive Angular frontend with standalone components, including product listing, filtering, cart, wishlist, and checkout.
- Integrated Paymob payments, guest checkout, and an admin dashboard for product and order management.
- Designed a dynamic product management system with database-driven attributes.
- Deployed the application on Vercel and MonsterASP, resolving production deployment and SSR issues.

INTERNSHIPS

ITI – Information Technology Institute Minya branch **Jan 2026 - Jun 2026**

Intensive Full Stack .NET Development & AI Agents Integration

- **Wareed (Blood Donation Hub)**: Built a blood donation platform using Angular and ASP.NET Core Clean Architecture with MediatR and SignalR for real-time notifications, featuring an AI agent powered by a fine-tuned LLM with RAG for donor assistance, plus role-based dashboards for admins, hospitals, and donors.
- **Civil Registration** : Developed an MVC web application , a comprehensive digital platform that provides Egyptian government civil services online, including document requests, registration, and citizen data management
- **RepairFlow :** Built a C# desktop application for managing repair requests, tracking job status, and handling customer records
- **E-commerce application :** Developed a front-end e-commerce application using JavaScript, featuring product listing, shopping cart and order management functionalities

EDUCATION

Faculty of Specific Education , Technology Department Minya University **Sep 2021 - Jun 2025**

- **Grade :** Excellent with Honors
- **Graduation Project :** Designed and developed the college's Quality Unit website, and contributed to the creation of an interactive digital book.
- **GP Grade** : Excellent

TRAININGS

Route Academy — Front-End Training Program **Jun 2024 - Jan 2025**

- **Yummy Project :** A food recipe web application using HTML, CSS, JavaScript, jQuery, and Bootstrap, featuring recipe browsing and search functionality
- **FresCart :** A full-featured e-commerce application using HTML, CSS, JavaScript, jQuery, Bootstrap, TypeScript, and Angular, with product listing, cart management, and a dynamic shopping experience

Faculty Quality Unit Website — Front-End Developer (Volunteer / Academic Project)

- Contributed to the development of the faculty's Quality Unit website, responsible for building and styling the front-end interface with angular to ensure a clean and user-friendly experience

TECHNICAL SKILLS

- **Backend:** ASP.NET Core (Web API & MVC), EF Core, LINQ, JWT, Clean Architecture, Repository Pattern, Unit of Work
- **Frontend:** JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive Web Design , Angular 20
- **Databases** : MS SQL Server (Advanced), Clustered/Non-Clustered Indexing, Query Optimization, Transaction Management (ACID), Stored Procedures
- **Tools:** it / GitHub, Visual Studio, SSMS, SOLID Principles, OOP, Design Patterns
- **Practices:** Agile / Scrum, Clean Architecture, N-Tier Architecture, Vertical Slicing, Repository Pattern, CQRS, Unit of Work

CERTIFICATIONS

- Information Technology Institute (ITI) – Full-Stack & Generative AI Development using .NET **Jul 2026**
- Mahara-Tech: Certified in Technical Software Development tracks **mar 2026**
- Route Academy Front-End with Angular Certificate **Jan 2025**
